248. TOWN PLANNING ISSUES

- a) Varying Order 2023 for Public Footpath No.3 Tavistock - the Committee considered the Notification which had been in respect of

Planning Application 1472/18/ARM associated with Land at SX 4722 7457 adjacent to New Launceston Road Development.
The decision was to '**Support**' the Application (Appendix 6).

- b) Public Bus Service Petition – the Committee received a petition, previously reported at Council (Minute No. 237 refers) (Appendix 7).

Attention was also drawn to a further item of digital correspondence subsequently received from the lead petitioner (previously circulated).

In the ensuing discussion reference was made to a range of issues including:

- i. Concerns regarding reductions in town bus services, associated adverse impacts on various user groups - including those with limited physical, transport or financial resources. Other adverse consequences might include reductions in visits to the town accentuated by the paucity of alternative public transport services. The differentiation between the funding treatment of the two affected routes was highlighted. Attention was further drawn to the potential that current poor arrangements (e.g. lack of links between routes thereby making it hard to access health services amongst others), were also of concern alongside, in the circumstances, potential detriment to long term public transport usage/route viability.
- ii. The nature and responsibilities of the various tiers of Local Government including:
 - i. Devon County Council (DCC) as Highway and Transport Authority;
 - ii. West Devon Borough Council (WDBC) as funder of applicable town bus services (as delivered via DCC) through S106 monies received. Also, the role of the WDBC statutory overview and scrutiny function, alongside such obligations to co-operate as applicable to principal authorities;
 - iii. The importance attached to the availability of fit for purpose public transport services, including the Town Council's willingness to work alongside the Planning Authority and/or overview and scrutiny led workstream, to better identify how current resources were being deployed, and options available to improve public transport provision.

RECOMMENDED THAT, having regard to the unsuitability of current arrangements, Tavistock Town Council write to West Devon Borough Council as the relevant authority requesting it to undertake an urgent review of the application of S106 monies for bus services in the Town,

with a particular focus on ensuring cost effective and co-ordinated public transport service provision.
